For the above, three pupils in five days in Grades I–VII give a "Total Actual Attendance" of 11 (No. 4 of Teacher's Monthly Report, Form B); those in Grades VIII–X, 7; and the one pupil in Grades XI–XIII, 4.

The daily total of attendance and absence must equal the enrolment of pupils; in the example, 7.

The monthly total and sub-total of Actual Attendance must check vertically and horizontally.

If the enrolment does not change, the sum of the Actual Attendance and Actual Absence for the month will equal the number of pupils multiplied by the number of days the class was in session; in the example, $7 \times 5 = 35$.

The Annual Report must show the sum of the Total Actual Attendance of pupils in each of the three groups. The Average Actual Attendance for each group will be obtained by dividing the Total Actual Attendance of each group by the number of days the group was in session.

* Teachers should separate groups in Register by line drawn in red ink or pencil.

Summarizing Pupils' Attendance for the School-year

Add the attendance sub-totals on the first two pages for each pupil, and enter the bi-monthly total in the Sept.-Oct. column on the wider page. Do this every second month, entering the bi-monthly sub-totals in succeeding columns.

At the end of June, add the five bi-monthly sub-totals for each pupil and enter in the School-year column. The total of this column (added vertically) must equal the total of the five previous columns added horizontally.

The Grand Total by Grade Groups will have one to four entries, depending on the type of school. If the class fits entirely into an (a) or (b) or (c) or (d) group, there will be only one entry in the column. In all cases the Grand Total will be the sum of the ten "Totals" indicated on the ten monthly pages.

The Total Actual Attendance for each grade group should be transferred monthly from the Total column on each page to the appropriate column and line in the table at the top of this page.

MALACCAN TREE MONEY

The natives of Malacca cast tin coins on "trees" and break them off as they need them. Malacca is located in the Malay Peninsula.

SILVER 15 SOL PIECE 1670 A.D.

Issued in accordance with an edict by Louis XIV, to further the transactions of La Compagnie des Indes, Canada, this coin had a value of about one penny. It is now one of the rarest Canadian coins.

PLAYING CARD MONEY 1685-1759 A.D.

Owing to the scarcity of regular currency, French troops in Canada were paid with money made from playing cards carrying the seal and signature of the Governor. It was used for 75 years.

WAMPUM BELT

Wampum was used as currency by the Indians long before the white man came to Canada. It was declared legal tender in the British-American colonies owing to a shortage of coins. Consisting of small tubes made from sea shells sewn into a belt, it remained legal tender until 1670.

BEAVER PELTS

The Indians traded beaver pelts for supplies and firearms. A stack of pelts as high as a musket paid for the gun. Hence the greedy white man made longer musket barrels.

HOLEY DOLLAR OF P.E.I.

Around the end of the 1700's, the Spanish dollar was in wide use in Eastern Canada. Due to a shortage of such coins in Prince Edward Island, the centres were punched and used as shillings — the outer rims as \$5.

NORTH-WEST COMPANY TOKENS

The N.-W. Company, operating in Canada from 1784 to 1821, issued its own coins, each good for one beaver skin.

CANADA'S FIRST REAL MONEY 1818 A.D.

Soon after its founding on Nov. 3rd, 1817, the Bank of Montreal issued its own bills to replace the many foreign currencies then in circulation, and later issued its own coinage. These early coins became, by order in Council, the models for all others. The Bank's money later became the authorized legal tender of Canada.

SPANISH BROKEN DOLLAR

Better known as the famous "Piece of eight" of pirate days, it could be broken into eight parts or "bits". Hence one quarter became "two-bits".

ONE TRILLION MARK

In 1923, when inflation in Germany reached its peak as an aftermath of World War I, the one trillion-mark coin bought a loaf of bread.

WEST AFRICAN COPPER MANILLA

During the 15th and 16th centuries, this coin, resembling a set of ear-phones, was used to buy slaves on the Slave Coast.

SILVER ONE-QUARTER PAGODA

"Pagoda" coins were struck in Madras, India, about 1800. The front of the coin shows the Great Tower over a temple entrance-gate.

Today, our friend Don's a success,
How he got that way's easy to guess,
With his very first dollar
When he was a scholar,
A "success fund" he started no less!

In saving it's the start that's im-

"Success Fund" with as little as one

CANADA'S

LACHINE CANAL RAILWAY TOKEN

Indians used these tokens as railway tickets on the Montreal & Lachine Railroad, completed in 1847. The conductor held them strung on a wire.

PINE TREE SILVER SHILLING

This coin was issued in Massachusetts in 1652, when, owing to Civil War at home, England was unable to supply the colonies with coinage.

WOODEN NICKEL

"Don't take any wooden nickels" we say today. But people in the U.S. were glad to have them during the Depression years, 1931 to 1933.
